Tulln on the Danube BEFORE THE GATES OF VIENNA

After the winding way of Wachau, the countryside suddenly becomes wide and open. The Danube broadens and flows mightily. To the north of the Danube, lie the sunny and elevated vineyards of the Wagram. The finest wines flourish here. The range of cultural activities is as varied as the mosaic of the landscape.

The range extends from the versatile Donaubühne Tulln venue to the Schubertiades at Schloss Atzenbrugg.

The Danube, art and garden city of Tulln is an important location for cyclists and trade shows and is known as the birthplace of Egon Schiele.
